Julian Assange must be held accountable for torpedoing secret Track-II-Diplomacy

Secret negotiations between Israel, Iran

Munich, 01.08.2018, 17:19 Time

Wisuschil - Media & Law - The president of Ecuador has ended the asylum for Wikileaks founder Julian Assange at the embassy in London and intends to hand over to the British police next week. For years, this has been a request for extradition of the US judiciary, so that a corresponding extradition is expected. This Julian Assange has published more than five million e-mails on the Internet under the title "Global Intelligence Files", which had captured a splinter group of the hacker collective "Anonymous" in a Christmas hack on 24 December 2011: This cyber attack was against the geopolitical Portal "Stratfor", which had been built in Huston by George Friedman. Today, this is continued under the name "Geopolitical Futures" by just this expert in geopolitics. In the course of this hacker attack, a confidential correspondence of the author was published, which has led this with the then editors of "Stratfor", as well as with the Meir Amit Institute in Ramat HaSharon north of Tel Aviv.

This was about the intended establishment of communication channels for secret negotiations between Israel and Iran in relation to the nuclear program of Iran at that time. The author had sought in this respect as part of a Track-II -Diplomacy since 2005, a corresponding implementation. Between 2008 and 2010, concrete measures were taken in the eastern German state of Thuringia, in the German capital Berlin and in the Bavarian city of Munich. For example, an American Jew from New York, an American with a connection to the "Bay of Pigs" affair, and a doctor from Cologne were involved in the best contacts with the Iranian state leadership. In addition, in January 2011, at the Opera Ball in Vienna, a milestone was set in which "unofficial representatives of the State of Israel" were present. Due to the unauthorized publication of the respective emails by Julian Assange in the "Global Intelligence Files", this long-standing project was torpedoed to 2012 at the turn of the year 2011. The attempt to revive this project in autumn 2015 in Tel Aviv and in spring 2016 in Brussels and Munich failed against this problematic background.

The smoldering danger of crises between Israel and Iran remains a significant problem for world peace, as Israel is closely allied with the US - and Iran with Russia. Since in the said project of a peacekeeping through international understanding in the way of a secret diplomacy a possible key for a conflict solution has slumbered: Julian Assange by sabotaging it has endangered the world peace. For this he must be held accountable by the US judiciary, as well as he must be liable for causing a significant financial loss, which he has thereby caused to the author: Whose IP law specialized and well-running Law Firm was namely by this Hacking Release destroyed, this being the operational platform for the above-mentioned Secret Track-II-Diplomacy.
