The same leftist party still tabled a motion of censure even before the Prime Minister's speech was delivered, in vain.

The real examination remains, and of great size, the anger of the farmers, which continues to grind in the countryside, first, then towards the epicenter of French and European food (RUNGIS MIN Center)...and towards Paris , the French capital. Indeed, the tax reduction measures (No increase in the GNR, simplification. The subject of disability has barely been mentioned, concerning disabled students in schools, helpless in the face of the shortage of AESH (Accompanying Helper for Disabled School Students). "Strengthening our public services also means acting for our school".../?
